

ESG

Environmental, Social & Governance

ESG IN SHIPPING | Online Seminar

OVERVIEW:

In today's rapidly evolving business landscape, Environmental, Social, and Governance (**ESG**) considerations have become integral to the shipping industry's sustainability efforts. This online seminar provides a comprehensive exploration of ESG principles, their relevance to the shipping sector, and practical strategies for integrating ESG into corporate practices.

SEMINAR SYLLABUS:

1. Introduction to ESG in Shipping

- Overview of sustainability and ESG principles

2. Environmental Aspect of ESG

- Understanding environmental sustainability
- Climate change and its impact in shipping
- Environmental Regulations (IMO, EU)

3. Social Aspect of ESG

- Social responsibility and ethical practices
- Diversity, equity, and inclusion in shipping.

4. Governance Aspect of ESG

- Corporate governance best practices
- Board diversity and independence
- Transparency and accountability

5. ESG Reporting and Metrics

- ESG reporting frameworks (e.g. GRI, CSRD, SASB, TCFD)
- Key Performance indicators for measuring ESG performance
- Integrating ESG into financial reporting

6. ESG Integration in Investment Decision-Making

- ESG risk assessment and management
- ESG factors in investment analysis

7. ESG in Practice

- Developing an ESG strategy for a shipping company
- Monitoring and evaluating ESG performance
- Examples of successful ESG initiatives in shipping

SEMINAR OBJECTIVES:

- ✓ Gain a holistic understanding of ESG principles and their application in the shipping industry.
- ✓ Explore the environmental, social, and governance aspects of ESG and their implications for shipping operations.
- ✓ Learn best practices for ESG reporting, metrics, and integration into investment decision-making.
- ✓ Develop practical skills for formulating and implementing ESG strategies within shipping companies.
- ✓ Identify successful ESG initiatives and case studies within the shipping industry.
